VIDA

VISION

To become one of Africa's most respected wellness beverage companies, recognized globally for products built on trust, craftsmanship and evidence-led innovation.

MISSION

To engineer premium wellness beverages that consistently improve everyday experiences through thoughtful formulation, disciplined manufacturing and enduring customer trust.

PURPOSE

We honour life by elevating the everyday

The Website

The navigation can be remarkably simple:

HOME | OUR STORY | OUR APPROACH | OUR PORTFOLIO | PARTNERSHIPS | CONTACT

The site should feel like visitors have discovered **an emerging African hydration house**, not a startup landing page.

Homepage

The opening should be almost cinematic.

VIDA

HONOUR LIFE.

ELEVATE THE EVERYDAY

Premium hydration, thoughtfully created for modern living.

VIDA Specialties Limited is building a new generation of hydration products from Africa—combining exceptional water, purposeful nutrition, disciplined science and considered design.

Then a restrained CTA:

DISCOVER VIDA

The Living Curve bottle could sit against an enormous field of negative space here. No need to reveal finished labels yet.

Our Story

LIFE, ELEVATED.

VIDA means **life**.

That simple idea sits at the heart of everything we create.

Water is one of life's most fundamental necessities. Yet we believe water should do more than just quench thirst.

VIDA was founded in Nigeria with a simple ambition: to elevate hydration beyond the ordinary.

We are bringing together water science, purposeful nutrition, disciplined product development and thoughtful design to create hydration products for the way people live today.

Our ambition extends beyond creating another bottled-water brand. We are building a modern African hydration company with the standards, systems and imagination to serve consumers at home and, ultimately, around the world.

Our Philosophy

EVERYDAY DOESN'T HAVE TO MEAN ORDINARY.

Then four principles:

Exceptional Water

Everything begins with water. Purity, consistency and sensory quality form the foundation of every VIDA product.

Purposeful Nutrition

Ingredients must have a reason for being there. Formulation begins with purpose, not trends.

Disciplined Science

We believe responsible wellness requires evidence. **VIDA will never make a claim stronger than its evidence.**

Thoughtful Design

From formulation to bottle architecture, we believe good design should make every day experiences better.

Every milligram earns its place.
Every curve has a purpose.
Every claim must earn its evidence.

Our Portfolio

ONE HYDRATION SYSTEM. PURPOSEFULLY DESIGNED.

VIDA IMMUNE

Everyday hydration. Purposefully supported.

A functional hydration concept being developed around essential electrolytes and selected micronutrients for everyday wellness.

VIDA RADIANCE

Hydration meets modern beauty wellness.

A sophisticated hydration concept being developed around carefully selected nutritional ingredients, including collagen peptides, hyaluronic acid and vitamin C.

VIDA EDGE

Hydration for the working mind.

A performance-oriented hydration concept designed for the rhythm of modern professional life.

THE VIDA BASE WATER STANDARD

Every VIDA functional product begins with the same uncompromising foundation: water engineered for purity, consistency and exceptional drinking quality.
Products shown are currently under development. Final formulations, specifications, availability and permitted claims are subject to technical validation and applicable regulatory approvals.

That is consistent with the regulatory discipline we've built into VIDA.

The Nigerian Opportunity

I would absolutely bring some of the new OIPP thinking onto the corporate website—but more elegantly than in the OEM dossier.

BUILT IN AFRICA. DESIGNED FOR THE WORLD.

Nigeria is home to one of the world's largest and most dynamic consumer populations.

VIDA sees an opportunity to help shape the next chapter of hydration: moving beyond a category defined primarily by purity, price and availability toward one where **quality, functionality, design and modern wellness** coexist.

We are building from Nigeria with international standards in

mind from the beginning.

Partnerships

BUILDING WITH THE BEST

VIDA is developing an international network of specialist partners across formulation, ingredient science, beverage manufacturing, packaging, quality systems and supply chain.

We seek partners who share our commitment to technical excellence, transparency, responsible innovation and long-term value creation.

Our development model combines international technical capability with deep understanding of the African consumer and marketplace.

We are interested in relationships, not simply transactions.

Manufacturing & OEM Partnerships
Ingredient & Formulation Partnerships
Packaging & Engineering
Distribution & Market Partnerships

About VIDA Specialties Limited

BUILDING AN AFRICAN INSTITUTION

VIDA Specialties Limited is a Nigerian consumer wellness company focused on premium hydration and functional beverages.

Our approach combines product development, manufacturing discipline, quality management, regulatory responsibility and distinctive industrial design within a unified institutional framework.

VIDA is being built deliberately: **systems before scale, standards before speed, excellence before expansion.**
